

Acclaimed Social Innovator to Speak at ITNAmerica® Retreat!

We are excited to announce that [Purpose Prize](#) winner [Robert Chambers](#) will be this year's keynote speaker at the ITNAmerica Affiliate Retreat on October 22 in Maine.

Chambers, a former car salesman, became frustrated with car dealerships taking advantage of the poor, so he founded [Bonnie CLAC](#) (Car Loans and Counseling) in 2001 to provide car loans at low-interest rates to individuals who would otherwise have no chance of getting a good car at a decent rate.

President Obama recently met with Chambers and six other social innovators at the White House, and [praised them](#) for "succeeding where others have failed; getting real, measurable results; changing the way we think about some of our toughest problems."

Bonnie CLAC has helped more than 1,200 families finance more than \$13 million in loans so they can buy a reliable car, get to their jobs, build credit, and plan for the future.

There is still time to RSVP to the Retreat (Oct. 22-23), or you are welcome to attend the keynote presentation Oct. 22. For details, call (207) 857-9001, contact judy.tierney@itnamerica.org, or visit www.itnamerica.org.
